SELECT EXPERIENCE

Gov AI / Product Designer

JAN 2020 - AUG 2020, PITTSBURGH

Designing a multitouchpoint service that includes voice design to help marginalized populations gain easier access to state benefits

NASA AMES / UX Design Intern

JUN 2019 - AUG 2019, MOUNTAIN VIEW

Created icons and flows for time-saving actions in **Playbook**, a mission planning tool, reducing clicks by 44%. Iteratively designed pages for **HUNCH** to increase site visibility.

JP Morgan / Sales and Trading Intern

JUN 2018 - AUG 2018, NEW YORK CITY

Redesigned a newsletter report read by 2000+ employees, reducing production time by 30 minutes. Improved the speed of client tracking using graphical visualizations.

PROJECTS

Bossa Nova x Walmart / Design Researcher

JAN 2020 - PRESENT, PITTSBURGH

Deriving and quantifying design recommendations for future human-robot interaction scenarios through field research on Bossa Nova's inventory scanning robots.

Human and Robot Partners Lab / Design Researcher

JAN 2020 - PRESENT, PITTSBURGH

Improving non-verbal communication for an augmented communicator by designing the UI for a physical aid device, or "sidekick". Conducted a co-design session to better understand needs.

CMU Accessibility Lab / UX Designer

SEP 2019 - DEC 2019, PITTSBURGH

Prototyped interactive tile patterns to aid the visually impaired more effectively navigate indoor spaces. Build out a survey to analyze tile use cases with blind users.

DARPA SubT Challenge / UX Designer & Project Lead

JAN 2019 - JUN 2019, PITTSBURGH

Crafted a base station interface to manage robots in a timed tunnel environment, aiding CMU Robotics in finding targets with 5-10% more precision over competitors. Managed a team of five designers and developers.
